FLIERS DESERT MUSKOGEE; NEXT STOP AT DALLAS

Muskogee Affords Royal Welcome for World Airmen on Trip

NEFF PRAISES AIRMEN

Rain Delays Departure of Globe Encirclers on Trip to Dallas

(By the Associated Press)

HAT BOX FIELD, Army Airway, Muskogee, Sept. 19.—The army round-the-world fliers took off from Muskogee for Dallas, 225 miles away, their next lap on their globe encircling journey, at 12:30 p. m. The Chicago was the first to take the air, followed by the Boston II and the New Orleans.

The weather was clear and the sunshine glistened from the tops of the huge yellow birds as they maneuvered into a V formation as the fliers headed southward. They will follow the M. K. & T. railroad lines to Dallas.

As the first of the planes took the air the crowd which had sloshed around on the field for an hour cheered and waved a God speed to the departing bird men.

AUSTIN, Tex., Sept. 19.—The American army world fliers have "blazed a trail of glory around the world and added lustre to American genius by the achievement and by their fearless and intrepid spirit of American manhood," Gov. Pat M. Neff said in a telegram today to be delivered to the aviators upon their arrival at Dallas. He welcomed them to Texas and regretted that his official duties prevented him from the pleasure of greeting in person the "pathfinders in this earth circling tour."

DALLAS, Sept. 19.—Preparations have been made for 15,000 persons to witness the arrival of the army round-the-world airmen at Love field, near here where they are scheduled to land today on their hop from Muskogee. Arriving at the field they will be officially greeted by Mayor Louis Blaylock, city and county officials, the reception committee of the chamber of commerce and local aviators. They are expected to have lunch at the field soon after their arrival. After spending the remainder of the afternoon at a hotel the pilots are scheduled to be guests of honor at a civic dinner at the hotel at 6:30 and then they will attend a vaudeville at a theater. The program of the dinner will be broadcast by station WSA.

Colonel Tom J. Maroney, chairman in charge of the field, said that probably 30 planes would be in the air with the world touring fliers as they appeared at Dallas. These will include 10 or 12 from Dallas, flown by local aviators, six from Kelly and Brooks field at San Antonio, five from Fort Sill, Okla., and others from New Orleans.

The globe encircling aviators will spend the night in Dallas leaving about 9 o'clock Saturday, weather permitting, on a hop of approximately 800 miles to El Paso, Texas, according to A. R. Mottef, aide, who arrived here yesterday.

McALESTER, Sept. 19.—In a message received by the Lions club of McAlester at 9 o'clock this morning Lieut. Smith, commander of the round the world fliers, said:

"We appreciate the welcome sign which we are informed is upon the top of the ice plant in McAlester and will watch for it, but we regret that early completion of our trip prevents our stopping at Legion Field in your city."

Preparations are being made to call the populace out by sounding sirens when the fliers appear over the city.

MUSKOGEE, Sept. 19.—The army round-the-world fliers probably will take off here for Dallas, 225 miles south, the next stop on this globe encircling journey, within an hour and a half, Lieut. Lowell H. Smith, flight commander informed the Associated Press at noon today.

Shortly before 11 o'clock a rain which had been falling since 1 o'clock stopped, the clouds broke and the sun peeped through and when information of weather conditions to the south was received the commander left at once for Hat Box field where the world flying planes were parked. Although the field is boggy, Lieut. Smith does not think it will interfere with the big cruisers taking off. An army plane bearing a service photographer during a heavy downfall of rain hopped off to Fort Sill. Although the east end of the field is heavy with mud, Lieut. Smith said there was ample room at the other end of the field for the take off.

NEW YORK, Sept. 18.—The brokerage firm of Day and Heater, one of the oldest members of the New York Stock exchange, was suspended today for failure to meet obligations. The firm has been a member of the exchange since September 1, 1871.

Ada Claims Part in History

Ada is destined for a place in history.

Ada is about 50 miles from the air route around the world. The distinction was afforded the Pontotoc metropolis this afternoon when the round-world fliers passed over Atoka, 50 miles from Ada.

Thus Ada and this section of the state bears a similar importance with Chignik, Tokio, Paris, Reykjavik and other stops of the air Magellans.

Radio reports to the effect that the aviators would include Ada in their itinerary, caused numbers of Ada citizens to search the heavens at an early hour this afternoon.

A flood of inquiries came to the News office as a result of the radio report from Dallas but the reports were never realized for the sky in the vicinity of the Ada gazers remained free from planes.

CURTIS WILLIAMS DIES AT ROCHESTER

Victim of Football Accident Dies at Hospital; Fund Being Raised

Committees from the Lions, Kiwanis and Commercial clubs were scheduled to canvass the business district of the city this afternoon to raise funds to defray the transportation and hospital expenses of Curtis Williams, school football player, who died at Rochester, Minn. Thursday evening as a result of injuries received in a football game at Mill Creek two weeks ago.

Death came last night following an operation in an effort to save his life.

The committees will endeavor to suffice sufficient funds to defray all expenses incurred through the accident and thus relieve the family of the expenses. This action was taken when it became known that the high school athletic fund was unable to handle the situation.

An advance amount of \$150 was sent to Rochester this morning to defray the expenses of bringing the body home.

James Curtis Williams, died in the Colonial Hospital at Rochester, Minnesota, Thursday evening at 10:51 o'clock, from injuries sustained in a football game at Mill Creek two weeks ago.

He was totally paralyzed except his head and arms, but the exact nature of his injury was unknown until an examination by Mayo Brothers, his neck was found to be broken, and an operation was performed in an effort to have his life.

Curt, as he was known among his friends was 18 years old on the 13th day of September and had lived in Ada seven years. He was a senior in High school and had also attended College during the summer.

Funeral arrangements are to be announced later.

INTERESTING DATA IN OLD ACCOUNT BOOK

Among the curios at the county fair that attracted considerable attention was an old memorandum book belonging to L. A. Kite. It was a book used by his father for occasional entries from 1859 to 1874 and gives an interesting light on prices in those days.

Beef sold from four to six cents a pound in 1859 and hides brought from \$1.00 to \$1.50. Shoes were listed at \$1.50 per pair. Day labor was worth \$1.00. Nails sold at seven and one-half cents per pound.

In 1860 corn was listed at \$1.00 per bushel and flour at \$8.00 per barrel.

In those days there was no revenue tax on whiskey and entries in the book indicate that 50 cents per gallon was the standard price. However, by 1873 the price advanced to \$1.20.

In 1863 a cow brought \$6.75 and coffee 33 1-3 cents per pound. In 1868 calico brought 15 cents per yard and thread 10 cents per spool.

In 1870 corn sold at \$2.00 per bushel and bacon 25 cents per pound.

In 1873 tobacco was worth 15 cents per plug. Flour was worth \$1.00 per barrel. Shoes had risen to \$2.50 per pair. Bacon had dropped to 15 cents. Labor was still \$1.00 per day in this year.

NEW DAIRY TO BE OUTFITTED AT PAULS VALLEY SCHOOL

PAULS VALLEY, Sept. 18.—A new dairy barn equipped with 20 stalls and stanchions will be completed by September 18 at the Pauls Valley training school for boys, according to school authorities.

Adjacent to the dairy barn a storm cellar built up with brick and concrete and equipped with a ventilating system will be used as winter quarters by the dairy boys. The new barn is a frame structure modernly equipped with water and electric light fixtures.

Muscle Shoals Nearly Done But No Work Is in Sight

A view of the great Wilson Dam built across the Tennessee River at Muscle Shoals, Ala. The photo shows a spillway section, with discharge through openings in coffer No. 2.

CAPITAL LEGION MEMBER ELECTED

Legion Convention at St. Paul Adjourns After Naming Drain as Leader

(By the Associated Press)

ST. PAUL, Sept. 19.—After naming Joseph Drain of Washington, D. C., as national commander and choosing five vice commanders and a national chaplain, the sixth annual convention of the American Legion adjourned sine die today at 12:53 p. m. to meet in Omaha in 1925.

The convention, on motion of the Missouri delegation voted to make Gen. John J. Pershing the permanent distinguished guest of this and every other American Legion convention.

Father Joseph Lonegrand of Durand, Ill., a Catholic priest, of Durand, was unanimously elected national chaplain.

ST. PAUL, Sept. 19.—Admission of Germany to membership in the International Veterans association to "promote world peace," will likely be granted soon, according to a statement made to the American Legion convention today by Col. Everett O. Thompson of Amarillo, Texas, one of the American delegation's representatives.

It is considered unfortunate here that the same amount of publicity was not given to the other bids as was received by Ford's offer. The reason, of course, is that Ford's publicity bureau saw to it that every person who could read heard about the motor manufacturer's offer.

Senator George W. Norris, who led the fight against acceptance by the senate of Ford's proposition, declared that if the motor manufacturers got it on their terms, the United States would be handing him the greatest gift ever bestowed upon him.

Sheriff Cavanagh said the sheriff at Anadarko reported that Johnson was not in the city and could not be reached for a statement today.

Attorneys for the mother filed the complaint without recourse to J. K. Wright, county attorney, under a statute providing that a mother in a case of this kind may bring action in a county court in her own name. The action in quasi criminal and quasi civil to which there is no criminal penalty attached, according to county officials, but was filed in an attempt to force him to provide for the child.

Johnson served in the Ninth regular session of the state legislature and in the second and the third extraordinary session. He represented Comanche, Jefferson, Cotton and Stephens counties.

Battle Promised.

The Shoals battle will be resumed in congress just as soon as it is known who will be for the next four years. Whoever wins, the fertilizer interests and the power interests and the land-sellers will be in the thick of the fight with their arguments pro and con. There will be an effort to make it a government-owned proposition and this will get a lot of support because that will mean more government jobs. Ford has not dropped the fight. The other bidders are not ready to retire and let him have it. So the Muscle Shoals fight will be one of the most interesting features on the congressional program.

East Central Holds Magnet for Students

East Central seems to be a magnet. Those who have ever attended East Central do not easily forget it for another school. If once a student has made East Central his headquarters of higher learning, no matter where he drifts he is hitched at his old post when the school year begins. Students whose homes are in Texas, Arkansas and other adjoining states, some from Wyoming, Colorado and other distant states who have scented the buds of intelligence plucked at East Central came back to taste the ripened fruit.

They feel the ever present atmosphere of friendliness when they enter the corridors. They realize quickly and fully that they are a part of the institution and if they keep the right attitude they have a great opportunity to make it a means toward an end worthy of the efforts that must be put forth to attain it.

If a student has a determination and a chance to accomplish what is afforded by East Central there is no good reason why he should fail, officials feel.

The old adage "where there is so much smoke there must be a little fire," leads faculty members to believe where so many former students return to East Central there must be something worth while.

DAWES MAY COME TO OKLAHOMA ON TOUR

OKLAHOMA CITY, Sept. 19.—There is a strong probability that Charles G. Dawes, Republican vice-presidential candidate will come to Oklahoma for two speeches during the pre-election campaign, according to Frank Wright, director of the Republican state speakers bureau that every effort would be made to include Oklahoma in Mr. Dawes' itinerary. Dawes has expressed a desire to invade the Southwest, particularly Oklahoma, for several addresses. Wright was informed.

NEW RADIO TEST To Be Made From Airplane Station

(By the Associated Press)

CHICAGO, Sept. 19.—United States army air service will attempt a new departure in radio casting this afternoon when an army plane over Chicago will radio cast by voice from a plane while WGM, a local radio casting station, will pick it up with a receiving set and through a microphone broadcast over a wave length of 370 meters.

The plane's captain, C. W. Rich-

ard, and Lieut. L. H. Hickey radio experts from Chanute Field, Illinois, will use the latest development in broadcasting apparatus, the result of research by the United States signal corps engineers. By voice it has a two way radius of 90 miles and by telegraph key a two way radius of 300 miles.

Car Owners Under Ban at Oklahoma University Now

NORMAN, Sept. 19. (Special)—"Get your automobile home immediately and relieve the administration of the embarrassment of sending you with it," is the warning issued by President J. S. Buchanan of the University of Oklahoma to the students who brought the family car to Norman at the opening of school.

A university ruling prohibits

students from keeping cars in Norman after classes start, but the rule will not be strictly enforced until September 22.

No excuses will be accepted from

students who have cars here after

that date, it is announced. The only pupils who will be given permits to keep automobiles here are married students who have families here.

Two Centenarians Celebrate

(By the Associated Press)
NEW YORK, Sept. 15.—When Mrs. Mae Udng celebrates her 114th birthday this afternoon in Harlem at the home of the Daughters of Israel, among those who will take part in the jollification will be her young brother of 100 years and her boy who is just 89.

She was born in Riga. Her memory goes back to kings, queens and emperors long ago departed.

Her centenarian brother, who often visits her, she regards as a "mere stripling" and often gives him the benefit of her sisterly advice. She eats no meat or eggs and only a few fruits and vegetables, living mostly on bread, cereals and coffee.

OKLAHOMA SLATED AS HOSTS AGAIN

Attorneys General to Visit State Oil Fields in October

(By the Associated Press)

OKLAHOMA CITY, Sept. 19.—Attorneys General of several states will be the guests of Oklahoma September 29 to October when they will visit a number of the state's leading oil fields, inspect refineries and pipe lines and see every phase of the oil industry, according to plans arranged by George F. Short, attorney general of Oklahoma, who will be host to the party.

The following attorneys general will visit the state unless unexpected circumstances prevent, Short said:

C. L. Hilton, Minn.; H. L. Ekren, Wis.; O. S. Spellman, Neb.; George M. Napier, Ga.; Ben G. Gibson, Iowa; D. F. Jones, S. Dak.; C. E. Griffith, Kan.; U. S. Lesh, Ind.; C. C. Crabb, Ohio; Jesse W. Barrett, Mo., and Andrew B. Daugherty, Mich.

After a visit to the conservation department of the state corporation commission, the state bureau that regulates oil and gas production and distribution, on the morning of September 29, the party will be taken to Norman to visit the University of Oklahoma that afternoon. Short announced. On September 30 the attorneys general will visit Ponca City for a tour of the refineries there and oil fields adjacent. The Burbank field and Pawhuska is on the itinerary for October 1. October 2 will be spent in and near Nowata and October 3, after visiting Claremore, the party will go to Tulsa where they will stay until the following afternoon when a trip will be made to Cromwell. After that the party will disband and start for their homes, Short said.

Every phase of the oil industry will be exhibited to the visitors. Short declared. "Shack towns, cities, new fields, old fields, refining, transportation and distribution will be shown them."

BAPTISTS OPPOSE WALTON ELECTION

District Meeting Denounces Candidate as Unworthy Of Christian Votes

OKLAHOMA CITY.—A resolution condemning J. C. Walton, senatorial candidate, for his statement that "95 percent of the Protestant ministers of the state are lower down than skunks," was adopted by the conference of the Central District Baptist association at the association's annual meeting held in Oklahoma City Thursday.

The association is made up of Baptist churches in Oklahoma, Logan, Kingfisher and Canadian counties. Approximately 200 delegates were present.

"Unworthy of Votes"

The resolution declared that Walton has proved himself wholly unworthy of the vote of Christian people, and that his election would subject the state to the "ridicule and contempt of the nation."

The resolution is the twelfth one condemning Walton which has been adopted by Baptist conferences over the state. The Muskogee district association, meeting at Wagoner, the Chickasha district association, meeting at Pocasset, the Banner district association, meeting at Pauls Valley, the Concord district association, meeting at Cordell, the Union district association, meeting at Lexington, the Atoka district association, meeting at Wardville, the Enid district association, meeting at Ardmore, the Pontotoc district association, meeting at Roff, the Le Flore district association, meeting at Sweet Home, the Wood district association, meeting at Alva, and the Garfield district association, meeting at Enid have passed similar resolutions.

Text of Resolution

The resolution adopted unanimously at Oklahoma City Thursday follows:

Whereas, one J. C. Walton, candidate for United States senator in Oklahoma, in public address made in Oklahoma City as well as in other cities of the state, said as is attested by many affidavits made by reputable citizens, and as generally reported in the public press, that "ninety-five percent of the Protestant preachers in Oklahoma are lower than skunks" and other and various slurring and contemptible remarks about these ministers whom he described as "Protestant preachers."

Therefore, Be it resolved, by the Central District Baptist association assembled in Oklahoma, September 18, 1924,

He Included Baptists

First, that while we Baptist ministers are not properly called "Protestants," it is evident that the said Walton out of the abundance of his ignorance so classifies us, and in his language evidently intended to include us, we therefore challenge and resent the insult thus offered not only to Baptist ministers but to the great body of noble and devoted men who are properly termed "Protestant preachers."

Second, we hereby declare it to be our sober opinion that any man who entertains such opinions of the majority of the ministers of this state, and who thus coarsely and vulgarly expresses himself concerning them, has in this, as in many other ways, proven himself to be wholly unworthy of the vote of the Christian people.

Mistake to Elect Him

Third, We declare it to be our sober opinion that the sending of J. C. Walton to the United States senate from Oklahoma would not only subject our state to the contempt and ridicule of the nation, but would, for six years, place in that high body a man who, because of his intellectual limitations and offensive personality, would wholly misrepresent the worthy people of our great state."

GREAT CAST IN "BEDROOM WINDOW"

The cast of the William deMille Paramount production, "The Bedroom Window," an original screen story by Clara Beranger, presents a line-up of leading players that is all-star in every sense of the word.

May McAvoy and Malcolm MacGregor are featured in the principal roles of the picture, a gripping mystery comedy-drama, which is showing at the McSwain theatre. Ricardo Cortez also has an important part in the cast, as have Robert Edeson, George Fawcett and Ethel Wales. All are featured. Then there is Charles Ogle, who can always be relied upon to give an excellent character portrayal, in a comic butler's role and Guy Oliver plays a detective. Medea Razina, the famous Russian beauty, is excellently cast as an altogether charming young woman who claims that the murder in the picture was committed over love for her. Lillian Leighton and George Calliga also appear in support. Quite a line-up, you'll agree!

TAX SWINDLES DRIVE POLES ACROSS FRONTIER

(By the Associated Press)

WARSAW, Sept. 19.—Its suspicions having been aroused by the abnormally small income returns filed by some important concerns in Polish Upper Silesia, the government set a special mission to make investigations on the spot.

It was disclosed that two industrial firms had carried duplicate sets of books, one secret and the other public. One concern reported a taxable income of 150,000,000 zlotys, while the hidden books showed it should have reported 600,000,000. The fines to be imposed will reach 5,000,000 zlotys. Some arrests have been made but the directors of the two companies have escaped to Germany.

If people would only be satisfied to accept a windy man's stories of his great achievements without insisting on a demonstration occasionally, it would save a lot of embarrassment.

The name of the prime minister of Poland is Grabski. If there is anything in a name that fellow should own half the country by the time he leaves office.

STILLWATER INSTITUTION TO SHOW STATE ACCOMPLISHMENTS THROUGH ANNUAL STATE FAIR

STILLWATER, Sept. 19.—(Special)—Wrestling and methods of grasshopper control, dressmaking and use of crude oil by-products are among the diverse things to be shown by departments of Oklahoma A. and M. college at the Oklahoma State fair, at Oklahoma City, Sept. 20-27, and at the Oklahoma Free State Fair, at Muskogee, Sept. 27-Oct. 4.

Departments which will be represented are agronomy, athletics, chemistry, dairy, agricultural education, entomology, home economics, publications, industrial engineering, zoology and the extension division, according to Prof. C. E. Sanborn, exhibit committee chairman.

Exhibits have been designed to show the work departments do and to indicate benefits which accrue from the work, Sanborn says.

The agronomy exhibit has been planned to feature value of the use of legumes in increased grain production. Some of the legumes which will be displayed are alfalfa, sweet clover, cowpeas, soybeans, Japanese clover and peanuts. Photos and charts have been prepared to illustrate the exhibit.

A squad of nine wrestlers will represent athletics, says E. C. Gallagher, head of the department. One of the group will be Guy Lookbaugh, Oklahoma entrant in the 1924 Olympiad, who lost the world's championship in his weight by the closeness of a decision. Orin Stuttsville, another Olympic contestant, who was unable to take part at Paris in July, because of injuries, will also be at the fair.

Other wrestlers will be Lloyd English, Altus; Laycooster Bingham, Geary; Gerald Northrip, Clinton; Ed Roberts, McLoud; Chris White and Greer Schilling, Geary and Pat Costner, Carnegie, Bingham, Northrip and Roberts participated in the national tryouts for the Olympic games, held in New York City in June. They did not get to France, however.

Not all of the squad will be seen in action on any one day, Gallagher said. He intends to divide the men into groups, one to perform the early part of the week, the other the last part of the week.

The chemistry exhibit is calculated to demonstrate use of by-products from the manufacture of products of raw materials. Crude oil and corn products and by-products will be displayed.

Educational Exhibit

Exhibits in education will be charts, designed to show ways in which the college comes in contact with the citizens of the state.

Measures for the control of crop pests will feature the exhibit planned by the entomology department. A "hopperdozer," a machine for exterminating grasshoppers, is one of the displays of the department. In this connection, the "pa" and "ma" grasshoppers will be shown. Professor Sanborn says. He is the departmental head. They are two huge hoppers which have been constructed by entomologists for the purpose of giving instruction in grasshopper physiology.

Crows and other birds also have a part in this exhibit.

In the publications booth will be shown student periodicals including yearbooks and newspapers and magazines. Pennants, banners and loving cups will be used for decorative purposes. Automatic lantern slides of student activities and camp scenes will be shown in the booth.

A display of women's afternoon and evening dresses, made by classes in dressmaking, to harmonize colors and designs with the complexion, size and disposition of wearers, is a part of the exhibit by the home economics department.

Another exhibit from the department is charts, emphasizing the study of child nutrition. Miss Nora A. Talbot, dean of the school, says. A shelf of books, recommended for the homemaker, will be shown, she said.

The department of industrial engineering has planned an exhibit of aluminum castings made by students in the college shops. W. B. French, of Stillwater, a junior student in the department, is sending furniture he made in the shops last year. It includes a walnut dining room suite, a cedar chest and a davenport table.

The zoology department is sending a display of mounted birds.

Nine hundred members of boys' and girls' county agricultural clubs, winners in various lines of club work, will be at the fair with exhibits, says B. A. Pratt, state club leader. Pratt said he expects 3,200

ruined

Many a first impression has been ruined by some seemingly little thing

It pays in life to be able to make people like you. And so often it is some seemingly very little thing that may hold you back.

For example, if a person's teeth are unclear, you will automatically hold this against him. And all the while this same analysis is being made of you.

Listene Tooth Paste cures teeth a new way. All the chemists have discovered a polishing ingredient that really cleans without scratching the enamel—a difficult problem finally solved.

A large tube of Listene Tooth Paste is only 25 cents; at your druggist's.—Lambert Pharmacal Co., Saint Louis, U. S. A.

Every day finds more families in Oklahoma enjoying perfectly baked pies, cakes, biscuits, muffins, etc., because the housewives are particular about the baking powder they use, and they always insist upon having

CALUMET
THE WORLD'S GREATEST
BAKING POWDER

There isn't an ingredient used in baking that is as vital to success as baking powder. Remember, one spoonful of an inferior leavener can ruin a dollar's worth of other ingredients.

You save when you buy Calumet because the pound can contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans.

You save when you use it because it goes farther than many other brands—lasts longer—makes more and better bakenings.

Don't risk ruining your bakenings all because of a change of baking powder.

FLIERS DESERT MUSKOGEE; NEXT STOP AT DALLAS

Muskogee Affords Royal Welcome for World Airmen on Trip

NEFF PRAISES AIRMEN

Rain Delays Departure of
Globe Encirclers on
Trip to Dallas

(By the Associated Press)

HAT BOX FIELD, Army Airway, Muskogee, Sept. 19.—The army round-the-world fliers took off from Muskogee for Dallas, 225 miles away, their next stop on their globe encircling journey, at 12:30 p. m. The Chicago was the first to take the air, followed by the Boston 11, and the New Orleans.

The weather was clear and the sunshine glistened from the tops of the huge yellow birds as they maneuvered into a V formation as the fliers headed southward. They will follow the M. K. & T. railroad line to Dallas.

At the first of the planes took to the air the crowd which had sloshed around on the field for nearly an hour cheered and waved a God-speed to the departing bird men.

AUSTIN, Tex., Sept. 19.—The American army world fliers have "blazed a trail of glory around the world and added lustre to American genius by the achievement and by their fearless and intrepid spirit of American manhood," says Paul M. Neff said in telegram today to be delivered to the aviators upon their arrival at Dallas. He welcomed them to Texas and regretted that his official duties prevented him from the pleasure of greeting in person the "magnificent in this earth circling tour."

DALLAS, Sept. 19.—Preparations have been made for 15,000 persons to witness the arrival of the army round-the-world airmen at Love Field, near here where they are scheduled to land early on their hop from Muskogee. Arriving at the field they will be officially greeted by Mayor Louis Blaylock, city and county officials, the reception committee of the chamber of commerce and local aviators. They are expected to have lunch at the field soon after their arrival. After spending the remainder of the afternoon at a hotel the pilots are scheduled to be guests of honor at a civic dinner at the hotel at 6:30 and then they will attend a vaudeville at a theater. The program of the dinner will be broadcast by station WSAK.

Colonel Tom J. Maroney, chairman in charge of the field, said that probably 30 planes would be in the air with the world touring fliers as they appeared at Dallas. These will include 10 or 12 from Dallas, flown by local aviators, six from Kelly and Brooks Field at San Antonio, five from Fort Sill, Okla., and others from New Orleans.

The globe encircling aviators will spend the night in Dallas leaving about 9 o'clock Saturday morning, permitting, on a hop of approximately 800 miles to El Paso, Texas, according to A. R. Monet, aide, who arrived here yesterday.

McALESTER, Sept. 19.—In a message received by the Lions club of McAlester at 9 o'clock this morning Lieutenant Smith, commander of the world fliers, said:

"We appreciate the welcome sign which we are informed is upon the top of the ice plant in McAlester and will watch for it, but we regret that early completion of our trip prevents our stopping at Love Field in your city."

Preparations are being made to call the populace out by sounding sirens when the fliers appear over the city.

MUSKOGEE, Sept. 19.—The army round-the-world fliers probably will take off here for Dallas, 225 miles south, the next stop on this globe encircling journey, within an hour and a half. Lieutenant Lowell H. Smith, flight commander informed the Associated Press at noon today.

Shortly before 11 o'clock a rain which had been falling since 5 o'clock stopped, the clouds broke and the sun peeped through and when information of weather conditions to the south was received the commander left at once for Hatbox field where the world flying planes were parked. Although the field is boggy, Lieutenant Smith does not think it will interfere with the big cruisers taking off. An army plane bearing a service photographer during a heavy downfall of rain hopped off to Fort Sill. Although the east end of the field is heavy with mud, Lieutenant Smith said there was ample room at the other end of the field for the take off.

NEW YORK, Sept. 18.—The brokerage firm of Day and Heaton, one of the oldest members of the New York Stock Exchange, was suspended today for failure to meet obligations. The firm has been a member of the exchange since September 1, 1871.

Ada Claims Part in History

Ada is destined for a place in history.

Ada is about 50 miles from the air route around the world.

The distinction was afforded the Pontotoc metropolis this afternoon when the round-the-world fliers passed over Atoka, 50 miles from Ada.

Thus Ada and this section of the state bears a similar importance with Chignik, Tokto, Paris, Reykjavik and other stops of the air Magellans.

Radio reports to the effect that the aviators would include Ada in their itinerary, caused numbers of Ada citizens to search the heavens at an early hour this afternoon.

A flood of inquiries came to the news office as a result of the radio report from Dallas but the reports were never realized for the sky in the vicinity of the Ada gazers remained tree from planes.

CURTIS WILLIAMS DIES AT ROCHESTER

Victim of Football Accident Dies at Hospital; Fund Being Raised

Committees from the Lions, Kiwanis and Commercial clubs were scheduled to canvass the business district of the city this afternoon to raise funds to defray the transportation and hospital expenses of Curtis Williams, school football player who died at Rochester, Minn. Thursday evening as a result of injuries received in a football game at Mill Creek two weeks ago.

Death came last night following an operation in an effort to save his life.

The committees will endeavor to secure sufficient funds to defray all expenses incurred through the accident and thus relieve the family of the expenses. This action was taken when it became known that the high school athletic fund was unable to handle the situation.

ST. PAUL, Sept. 19.—After naming Joseph Brain of Washington, D. C., as national commander and choosing five vice commanders and a national chaplain, the sixth annual convention of the American Legion adjourned sine die today at 12:45 p. m. to meet in Omaha in 1925.

The convention, on motion of the Missouri delegation, voted to make Gen. John J. Pershing the permanent distinguished guest of this and every other American Legion convention.

Father Joseph Loprand of Durand, Ill., a Catholic priest of Durand, was unanimously elected national chaplain.

ST. PAUL, Sept. 19.—Admission of Germany to membership in the International Veterans association to "promote world peace," will likely be granted soon, according to a statement made to the American Legion convention today by Col. Everett O. Thompson of Amarillo, Texas, one of the American Legion representatives.

He was totally paralyzed except his head and arms, but the exact nature of his injury was unknown after an examination by Mayo brothers, his neck was found to be broken, and an operation was performed in an effort to have his life.

Curt, as he was known among his friends was 18 years old on the 13th day of September and had lived in Ada seven years. He was a senior in High school and had also attended College during the summer session.

Funeral arrangements are to be announced later.

INTERESTING DATA IN OLD ACCOUNT BOOK

Among the curios at the county fair that attracted considerable attention was an old memorandum book belonging to L. A. Kite. It was a book used by his father for occasional entries from 1859 to 1874 and gives an interesting hint on prices in those days.

Beef sold from four to six cents a pound in 1859 and hides brought from \$1.00 to \$1.50. Shoes were listed at \$1.50 per pair. Day labor was worth \$1.00. Nails sold at seven and one-half cents per pound. In 1860 corn was listed at \$1.00 per bushel and flour at \$8.00 per barrel.

In those days there was no revenue tax on whiskey and entries in the book indicate that 50 cents per gallon was the standard price. However, by 1873 the price advanced to \$1.20.

In 1863 a cow brought \$6.75 and coffee 33 1/3 cents per pound. In 1868 cattle brought 15 cents per yard and thread 10 cents per spool.

In 1870 corn sold at \$2.00 per bushel and bacon 25 cents per pound.

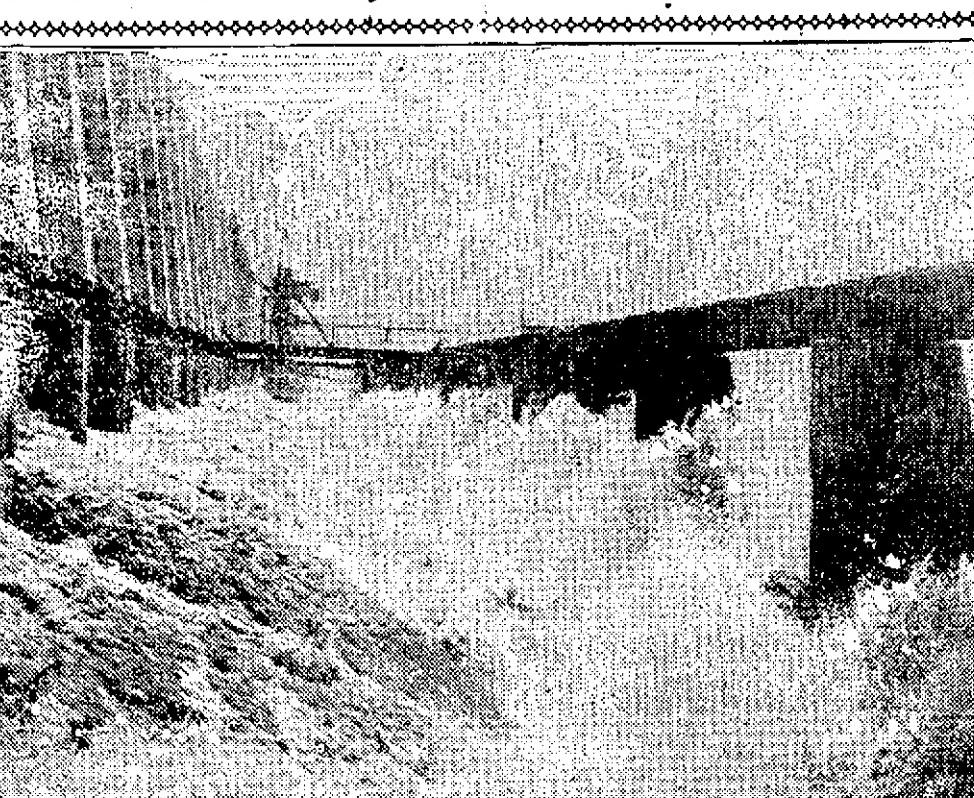

In 1873 tobacco was worth 35 cents per bag. Flour was worth \$1.00 per barrel. Shoes had risen to \$2.50 per pair. Bacon had dropped to 15 cents. Labor was still \$1.00 per day in this year.

NEW DAIRY TO BE OUTFITTED AT PAULS VALLEY SCHOOL

PAULS VALLEY, Sept. 18.—A new dairy barn equipped with stalls and stanchions will be completed by September 18 at the Pauls Valley training school for boys, according to school authorities.

Adjacent to the dairy barn a storm cellar built up with brick and concrete and equipped with a ventilating system will be used as winter quarters by the dairy boys. The new barn is a frame structure modernly equipped with water and electric light fixtures.

Muscle Shoals Nearly Done But No Work Is in Sight

East Central Holds Magnet for Students

East Central seems to be a magnet. Those who have ever attended East Central do not easily forget it as an effort to make it a government for another school. If once a student has made East Central his head—a lot of support because that will be quarters of higher learning, no mat—mean more government jobs. Ford where he drifts he is hitched has not dropped the fight. The other at his old post when the school bidders are not ready to retire and year begins. Students whose homes let him have it. So the Muscle Shoals fight will be one of the most in the thick of the fight with their arguments pro and con. There will be a battle promised.

The Shoals battle will be resumed in Congress just as soon as it is known who will be who for the next four years. Whoever wins, the fertilizer interests and the power interests and the land-sellers will be in

the thick of the fight with their arguments pro and con. There will be a battle promised.

They feel the ever present atmosphere of friendliness when they enter the corridors. They realize quickly and fully that they are a part of the institution and if they keep the right attitude they have a great opportunity to make it a means toward an end worthy of the efforts that must be put forth to attain it.

If a student has a determination and a chance to accomplish what is afforded by East Central there is no good reason why he should fail.

The old adage "where there is a will there must be a way" is true.

The piano's captain, C. W. Richman, leads faculty members to be experts from Chanute Field, Illinois.

Here where so many former stu-

dents return to East Central there

must be something worth while.

PAULS VALLEY, Sept. 18.—A

New Radio Test To Be Made From Airplane Station

(By the Associated Press)

CHICAGO, Sept. 19.—United States army air service will attempt a new departure in radio casting this afternoon when an army plane over Chicago will radio cast by voice.

After the holding the robbers ran to a motor car in an alley back of the bank, jumped in and sped away.

No shots were fired.

Posse immediately were organized and started in pursuit but an hour later no trace had been found of the bandits.

A microphone radiostat over a wave length of 370 meters,

DEMURGER IS OVERRULLED IN FORBES INDICTMENT

(By the Associated Press)

CHICAGO, Sept. 19.—Federal

Judge Carpenter today overruled

demurrer of Col. L. E. Forbes

and John W. Thompson, Chicago,

and St. Louis contractor, to indictments charging them with conspiracies in connection with Forbes' ad-

ministration as director of the veterans' bureau. The trial date will be October 14.

Two Centenarians Celebrate

(By the Associated Press)
NEW YORK, Sept. 15.—When Mrs. Mae Udeng celebrates her 114th birthday this afternoon in Harlem at the home of the Daughters of Israel, among those who will take part in the jollification will be her young brother of 100 years and her boy who is just 89.

She was born in Riga. Her memory goes back to kings, queens and emperors long ago departed.

Her centenarian brother, who often visits her, she regards as a "mere stripling" and often gives him the benefit of her sisterly advice.

She eats no meat or eggs and only a few fruits and vegetables, living mostly on bread, cereals and coffee.

OKLAHOMA SLATED AS HOSTS AGAIN

Attorneys General to Visit State Oil Fields in October

(By the Associated Press)
OKLAHOMA CITY, Sept. 19.—Attorneys General of several states will be the guests of Oklahoma September 29 to October when they will visit a number of the state's leading oil fields, inspect refineries and pipe lines and see every phase of the oil industry, according to plans arranged by George F. Short, attorney general of Oklahoma, who will host to the party.

BIBLE THOUGHT FOR TODAY

LOVE IS NOT THE WORLD, neither the things that are in the world. If any man love the world, the love of the Father is not in him.—1 John 2:15.

Some enterprising natives of Armenia have come forward with a proposition to turn Mt. Ararat into a pleasure resort. Occasionally some returned traveler brings home some great tale about finding the remains of Noah's ark in some secluded nook about the big mountain and it is safe to say that reports of this kind would come from a resort on the mountain about as thick as they now do from seaside hotels concerning the appearance of a sea serpent. Hunting for the ark would soon become a popular pastime with the guests of the hotels.

With the record of constructive legislation enacted during President Wilson's term, Republicans can no longer say that the Democratic party lacks men of brains large enough to govern the country wisely. With the exception of the first two years of Cleveland's second administration, the first six years of Wilson's administration is the only time since the days of Franklin Pierce and James Buchanan that the Democrats have had a majority in both houses of congress and held the presidency at the same time but they made good use of their opportunity.

In the early days of the state the corporation commission was one of the most powerful branches of its government. However, in recent times the courts and acts of congress in enlarging the powers of the interstate commerce commission have taken away just about all its powers except to raise rates. Perhaps it is to keep from being entirely forgotten that it exercises this one power at intervals. When a rate is raised there is a lot of kicking for a time and that reminds the people that they still have a corporation commission. When a rate is lowered a court usually enjoins it.

And still the Chinese war goes merrily on. Looks like every provincial governor aspires to be his own boss regardless of the central government and the latter is not strong enough to stay in the saddle. China is having a hard time trying to learn the art of self-government but in time will probably solve the question in a way. It was a long hard road that England traveled before attaining the desired end and France made three or four starts before being able to walk alone.

After shaking hands with several thousand enthusiastic Democrats at the Missouri state rally, John W. Davis now has a badly swollen and painful right hand and arm. However, Coolidge is having no such trouble as he sits aloof from the turmoil of a campaign and let others do his handshaking and speaking. Perhaps both men are right, for Davis has a message for the people while Coolidge probably thinks they know too much already for the good of the Republican party.

It is hard to tell which type is the greatest obstacle in the way of real community progress, the man who is all the time knocking because things are not like they were in his grandfather's day and the other who is so visionary that he takes up with every fad that comes along; just walks over opportunities along the way while gazing at the unattainable stars.

Government officials recently seized a rug imported from Greece that was a veritable work of art but was held to come under the laws against counterfeiting. It was four feet by six feet and a reproduction of an American dollar bill, and although not likely to be passed on some unsuspecting greenback as such, the law forbids any sort of imitation of currency. Hence the maker of the rug is the loser.

To be beaten by the negro Wills was hard enough for Luis Firpo but now he must face charges of perjury and other misdeeds in connection with his entry into the United States. However, the big purse he received for his scrap may prove something of a salve for his wounded feelings.

A dispatch from China says two editors have been executed for publishing things the governing powers did not like. If such a system prevailed in America the tribe of editors would be extinct within a week.

Although the latest government report indicates that consumption of cotton by American mills has gained but little of late exports continue to increase. That appears to be the main hope for a better price for the crop than is now being received.

If people would only be satisfied to accept a windy man's stories of his great achievements without insisting on a demonstration occasionally, it would save a lot of embarrassment.

The name of the prime minister of Poland is Grabowski. If there is anything in a name that fellow should own half the country by the time he leaves office.

BAPTISTS OPPOSE WALTON ELECTION

District Meeting Denounces Candidate as Unworthy Of Christian Votes

OKLAHOMA CITY.—A resolution condemning J. C. Walton, senatorial candidate, for his statement that "95 percent of the Protestant ministers of the state are lower down than skunks," was adopted by the conference of the Central District Baptist association at the association's annual meeting held in Oklahoma City Thursday.

The association is made up of Baptist churches in Oklahoma, Logan, Kingfisher and Canadian counties. Approximately 200 delegates were present.

Unworthy of Votes?

The resolution declared that Walton has proved himself wholly unworthy of the vote of Christian people, and that his election would subject the state to the "ridicule and contempt of the nation."

The resolution is the twelfth one condemning Walton which has been adopted by Baptist conferences over the state. The Muskogee district association, meeting at Wagoner, the Chickasha district association, meeting at Pocasset, the Banneker district association, meeting at Pauls Valley, the Concord district association, meeting at Cordell, the Union district association, meeting at Lexington, the Atoka district association, meeting at Wardville, the Enid district association, meeting at Ardmore, the Pontotoc district association, meeting at Roff, the LeFlore district association, meeting at Sweet Home, the Wood district association, meeting at Alva, and the Garfield district association, meeting at Enid have passed similar resolutions.

Text of Resolution

The resolution adopted unanimously at Oklahoma City Tuesday follows:

Whereas, one J. C. Walton, candidate for United States senator in Oklahoma, in public address made in Oklahoma City as well as in other cities of the state, said, as is attested by many affidavits made by reputable citizens, and as generally reported in the public press, that "ninety-five percent of the Protestant preachers in Oklahoma are vulture-skunks" and other and various slurring and contemptible remarks about these ministers whom he described as "Protestant preachers."

Therefore, Be it resolved, by the Central District Baptist Association assembled in Oklahoma, September 18, 1924,

He included Baptists

First, that while we Baptist ministers are not properly called "Protestants," it is evident that the said Walton out of the abundance of his ignorance so classifies us, and in his language evidently intended to include us, we therefore challenge and resent the insult thus offered not only to Baptist ministers but to the great body of noble and devoted men who are properly termed "Protestant preachers."

Second, we hereby declare it to be our sober opinion that any man who entertains such opinions of the majority of the ministers of this state, and who thus coarsely and vulgarly expresses himself concerning them, has in this, as in many other ways, proven himself to be wholly unworthy of the vote of the Christian people.

Mistake to Elect Him

Third, We declare it to be our sober opinion that the sending of J. C. Walton to the United States senate from Oklahoma would not only subject our state to the contempt and ridicule of the nation, but would, for six years, place in that high body a man who, because of his intellectual limitations and offensive personality, would wholly misrepresent the worthy people of our great state."

GREAT CAST IN "BEDROOM WINDOW"

The cast of the William deMille Paramount production, "The Bedroom Window," an original screen story by Clara Beranger, presents a line-up of leading players that is a full-star in every sense of the word. May McAvoy and Malcolm MacGregor are featured in the principal roles of the picture, a gripping mystery comedy-drama, which is showing at the McSwain theatre. Ricardo Cortez also has an important part in the cast, as have Robert Edeson, George Fawcett and Ethel Wales. All are featured. Then there is Charles Ogle, who can always be relied upon to give an excellent character portrayal, in a comic butler's role, and Guy Oliver plays a detective. Medea Karyina, the famous Russian beauty, is excellently cast as an altogether charming young woman who claims that the murder in the picture was committed over love for her. Lillian Leighton and George Calliga also appear in support. Quite a line-up, you'll agree!

TAX SWINDLES DIGIVE POLES ACROSS FRONTIER

(By the Associated Press)

WARSAW, Sept. 19.—Its suspicions having been aroused by the abnormally small income returns filed by some important concerns in Polish Upper Silesia, the government set a special mission to make investigations on the spot.

It was disclosed that two industrial firms had carried duplicate sets of books, one secret and the other public. One concern reported a taxable income of 150,000,000 zlotys, while the hidden books showed it should have reported 600,000,000. The fines to be imposed will reach 5,000,000 zlotys. Some arrests have been made but the directors of the two companies have escaped to Germany.

STILLWATER INSTITUTION TO SHOW STATE ACCOMPLISHMENTS THROUGH ANNUAL STATE FAIR

STILLWATER, Sept. 19.—(Special)—Wrestling and methods of grasshopper control, dressmaking and use of crude oil by-products are among the diverse things to be shown by departments of Oklahoma A. and M. college at the Oklahoma State fair at Oklahoma City, Sept. 20-27, and at the Oklahoma Free State Fair at Muskogee, Sept. 27-Oct. 4.

Reportments which will be represented are agronomy, athletics, chemistry, dairy, agricultural education, entomology, home economics, publications, industrial engineering, zoology and the extension division, according to Prof. C. E. Sanborn, exhibit committee chairman.

Exhibits have been designed to show the work departments do and to indicate benefits which accrue from the work, Sanborn says.

The agronomy exhibit has been planned to feature value of the use of legumes in increased grain production. Some of the legumes which will be displayed are alfalfa, sweet clover, cowpeas, soybeans, Japanese clover and peanuts. Photos and charts have been prepared to illustrate the exhibit.

A squad of nine wrestlers will represent athletics, says E. C. Gallagher, head of the department. One of the group will be Guy Lookbaugh, Oklahoma entrant in the 1924 Olympia, who lost the world's championship in his weight by the closeness of a decision. Orin Stuttsville, another Olympia contestant, who was unable to take part at Paris in July, because of injuries, will also be at the fair.

Other wrestlers will be Lloyd English, Altus; Lester Blasham, Geary; Gerald Northrop, Clinton; Ed Roberts, McLoud; Chris White and Greer Schilling, Geary and Pat Costner, Carnegie, Bingham, Northrup and Roberts participated in the national tryouts for the Olympic games, held in New York City in June. They did not get to France, however.

Not all of the squad will be seen in action on any one day. Gallagher said. He intends to divide the men into groups, one to perform the early part of the week, the other the last part of the week.

The chemistry exhibit is calculated to demonstrate use of by-products from the manufacture of products of raw materials. Crude oil and corn products and by-products will be displayed.

Educational Exhibit

Exhibits in education will be charts, designed to show ways in which the college comes in contact with the citizens of the state.

Measures for the control of crop pests will feature the exhibit planned by the entomology department. A "hopperdozer," a machine for exterminating grasshoppers, is one of the displays of the department. In this connection, the "pa" and "ua" grasshoppers will be shown, Professor Sanborn says. He is the departmental head. They are two large hoppers which have been constructed by entomologists for the purpose of giving instruction in grasshopper physiology.

Crows and other birds also have a part in this exhibit.

In the publications booth will be shown student periodicals including yearbooks and newspapers and magazines. Pennants, banners and loving cups will be used for decorative purposes. Automatic lantern slides of student activities and campus scenes will be shown in the booth.

A display of women's afternoon and evening dresses, made by classes in dressmaking, to harmonize colors and designs with the complexion, size and disposition of wearers, is a part of the exhibit by the home economics department.

Another exhibit from the department is charts, emphasizing the study of child nutrition. Miss Nora A. Tabot, dean of the school, says. A shelf of books, recommended for the housewife, will be shown she said.

The department of industrial engineering has planned an exhibit of aluminum castings made by students in the college shops. W. B. French, of Stillwater, a junior student in the department, is sending furniture he made in the shops last year. It includes a walnut dining room suite, a cedar chest and a davenport table.

The zoology department is sending a display of mounted birds.

Nine hundred members of boys' and girls' county agricultural clubs, winners in various lines of club work, will be at the fair with exhibits, says B. A. Pratt, state club leader. Pratt said he expects 2,200

ruined

Many a first impression has been ruined by some seemingly little thing

It pays in life to be able to make people like you. And so often it is some seemingly very little thing that may hold you back.

For example, if a person's teeth are unequal, you will automatically hold this against him. And all the while this same analysis is being made of you.

Listerine Tooth Paste cures teeth a new way. At last our chemists have discovered a polishing ingredient that really cleans without scratching the enamel—a difficult problem finally solved.

A large tube of Listerine Tooth Paste is only 25 cents; at your druggist's—Lambert Pharmacal Co., Saint Louis, U. S. A.

Freed of Killing Son.

ARDMORE, Ok.—John A. Kendall of Oklahoma City and formerly a wealthy land owner of Carter county, Wednesday night was acquitted of a charge of murder by a jury in district court here in connection with the death in April, 1922, of his 16-year-old son, Man-

yard, who was found in a dying condition in his home here, a bullet wound in the temple. At the time of young Kendall's death, a coroner's jury returned a verdict of suicide, but the case was revived in February of this year by the boy's mother, who has since divorced from the elder Kendall.

Prof. and Mrs. F. B. Haskins of Summers Chapel will leave Saturday on an overland trip to Gainesville, in the Ozarks region of Missouri.

McCarty Bros. can fix that old tire or tube. Phone 855, 216-118 South Townsend. 5-23-1f

Mrs. George Henry Bruce, pioneer woman of Ardmore and southern Oklahoma, is seriously ill at her home, 419 North Washington. Mrs. Bruce was as well as usual yesterday but became suddenly ill this morning. Relatives have been called to her bedside.—Ardmoreite.

J. D. Willoughby was called to Washington, McClain county, by a message telling of the death of a little granddaughter Tuesday in a runaway accident. The little brother of the victim was seriously injured and underwent an operation but the outcome has not been learned.

The Pilgrim Oil Company this morning drilled into the sand at 800 feet in the test on the Ada Development land in section 27-4-6. Six feet in the sand showed some gas and a sprinkling of oil. Operations were shut down to make some repairs and the hole will be continued. While this showing is satisfactory, there was neither enough of gas or oil to pay. A little salt water was also encountered.

The Texas & Pacific Oil Company has two cars of casing in, and the man who will be in charge is expected in tonight or tomorrow. A well will be started on the Whitaker farm in the center of the synclastic quarter of section 31-4-6, west of Ada. This is to be a deep test.

W. J. Bryan and others expect to resume "drilling Saturday or Monday in section 18-4-5 on the Clint Palmer farm. The depth of the hole is now 515 feet.

Thompson and Black are straight running at 800 feet in section 2-2-5 on the Pine farm.

Floyd O. Howard in section 19-5-7 is having casing trouble at 2340 feet.

The same company is drilling around 600 feet in section 14-4-7, carrying 15 1/2 inch casing.

Ed Gillette and Robert Galbraith have a location in the southeast corner of section 13-4-5, northwest of Ada. The cellar is to be dug immediately, and the well will be started before a great while. They have not decided whether they will put a new set of tools on the lease or will wait until they have completed the well they are drilling for W. J. Bryan a half mile to the northeast. The new well will be on the Enoch Gregory farm and will probably be a deep test. The hole will be started 18 inches.

EDWARD'S ROOTS OF LEAD OCCASIONALLY NEED REPAIR

(By the Associated Press) LONDON.—The leaden roofs of some of England's old churches, a heritage from mediaeval times, occasionally have to be melted down, rolled over and then replaced. The lead itself is indestructible, but it has been found that at the end of every 200 years, the metal should be recast to give the best results as a roofing material.

The lead on the famous dome of St. Paul's, however, has not been melted down since it was placed in position in 1710.

Intrepid Girl Trainer "Meeter of all Comers"

MABEL STARK AND ONE OF HER TWELVE TRAINED TIGERS.

A mere slip of a girl, weighing when the mammoth combined show scarcely a hundred pounds, yet the "metter of all comers" among wild animals including ferocious Bengal and Siberian tigers. That, in a sentence, describes Mabel Stark, trainee of jungle beasts.

Mabel Stark is the marvel among animal subjugators. And this season she has amazed fellow trainers of the Ringling Brothers and Barnum & Bailey circus by perfecting an act in which she wrestles a tiger four times her own weight. To see this deftly formed girl roll over and over in the center of a steel-ribbed arena, first on top and then under a powerful jungle beast is to "Cats." And, most essential of all, witness the last thrill in sensational acts. Yet that is what Mabel Stark one way of showing fear and, once will do here both afternoon and that is apparent, serious results are night with her great tiger, Rajah, likely to follow."

"The secret of it is very simple," says she. "Keep close in upon the animals you are working and no harm is likely to come to you. Never let yourself be placed upon the defensive; always take the offensive tack. As long as I keep after my animals they back up. If you keep close to a horse's heels you are not likely to receive a bad kick."

Barred arena, first on top and then in a measure is true of under a powerful jungle beast is to "Cats." And, most essential of all, witness the last thrill in sensational acts. Yet that is what Mabel Stark one way of showing fear and, once

will do here both afternoon and that is apparent, serious results are night with her great tiger, Rajah, likely to follow."

HEAVY RUN OF RIVER SALMON KEEP CANADIAN FISHERS BUSY

(By the Associated Press)

VICTORIA, B. C., Sept. 18.—The salmon run in British Columbia rivers is the largest since the record of 1919, according to reports received by Hon. William Sloan, provincial commissioner of fisheries. Canneries along the Fraser, Skeena and Nass rivers are working day and night shifts in an effort to take care of the catch.

The catch of seagoing Mr. Sloan said, will be the heaviest in years. The market increase in quantity this year will mean greater prosperity for the salmon industry.

The total value of the fisheries production of Canada was \$42,565,548 last year, according to the annual report, or an increase in value of \$765,335 over 1922.

The amount of capital represented in fishing vessels, boats, nets, traps, piers, and wharves employed in catching and landing the fish in 1923 was \$23,645,316. The number of men employed in these operations was 52,517.

The amount of capital represented in fishing vessels, boats, nets, traps, piers, and wharves employed in catching and landing the fish in 1923 was \$23,645,316. The number of men employed in these operations was 52,517.

In Society

Epworth College Club Social Friday Evening.

The Epworth College Club committee on social activities has prepared a program for its first function which will be held Friday evening at 7:45 in the parlors of the First Methodist church. There will be music, games, contests and refreshments to make a convivial hour. The club extends a cordial invitation to all college students to attend and enjoy the evening with its members.

"A GENTLE REMINDER"

That you have a cordial invitation to visit the Baptist Men's Bible Class that meets every Sunday morning at the McSwain theatre 9:45.

THE HAYS SCHOOL CHORUS

Led by Mrs. W. S. Bagley

Will render us some special numbers. Come and meet with us. Enjoy the singing and the lesson. Some big news is about to break! Don't miss it!

J. W. Westbrook, Chas. T. Bates, B. B. Howard
Program Committee

You Cannot Go to Church by Proxy!

A most cordial invitation is extended to all to attend every service at

THE FIRST CHRISTIAN CHURCH

Interesting and uplifting sermons by the Pastor every Sunday morning at 11 o'clock, and every Sunday evening at 7:45. BIBLE SCHOOL at 9:45. Competent and trained teachers and a class for everyone.

THE LOYAL DAUGHTERS' CLASS

meets in the Criswell Parlor. This class has recently elected Mrs. Bliss, music director at the high school as its teacher and a largely increased attendance is expected.

THE LOYAL MEN'S BIBLE CLASS

meets in the Harris Hotel every Sunday morning at 9:30. Special music and Dr. Linscheid—huff said.

Pimples

You will be startled how quickly and thoroughly you can stop skin eruptions and beautify your complexion with S.S.S.

PIMPLES are the first thing one notices in another person's face. It is too often cruel in its misjudgment. It judges from what it sees on the outside. Pimples are easy to get rid of. More red-cells! That is what you need when you see pimples staring at you in the mirror. Red-cells mean clear, pure, rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from blackhead pest, from boils, from eczema and skin eruptions; from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S.S.S. will aid Nature in building them for you! S.S.S. has been known since 1826 as one of the greatest blood-builders, blood-cleansers and system strengtheners ever produced. Start taking S.S.S. today. Its medicinal ingredients are purely vegetable.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

CHURCH NOTES

Another Worker In School Here

Presbyterian Church
In this special go-to-church time set by all the churches of Ada, let the Presbyterians lead in percent of attendance compared with membership. We can do it. Come on let's go!

Hear our new Sunday school orchestra led by Prof. Martin and join a class in the Bible school. "The Sacredness of Work" will be the sermon subject 11 a. m. C. E. Society, 7 p. m.

The new orchestra will again play at 7:30 and at 8 p. m. the pastor will preach on the subject "Meeting Your Goliath."

We do things. Come thou and do with us and reap the fruits of doing.—Yours to serve, Rev. E. O. Whitwell, D. D., pastor.

First Methodist Church.

"A Home-like Church."

Sunday school at 9:45 a. m. sharp. Morning sermon 10:55. Subject, "The Muzzled Ox." Epworth League 6:45 p. m.

Evening sermon 7:45 p. m. Subject, "The Loss of Power."

Every Methodist invited to these services. The young people of college and high school who are Methodist or are inclined to be are urged to attend at least one preaching service each Sunday.

The days are swiftly hurrying on to annual conference date. Make each Sunday count.

Note the "Go to Church" campaign now on, and encourage it by your presence.

R. T. BLACKBURN,
Pastor.

First Christian Church

Bible school at 9:45 a. m. Mr. C. E. Cunius, superintendent, and George L. Dougherty, assistant superintendent.

The Mens Bible Class will meet at 9:30 a. m. in the banquet room of the Harris hotel. Dr. A. Linscheid, teacher.

The Local Daughters Class will meet at 9:30 a. m. down town in Criswell's parlor. Mrs. Bliss, teacher.

Communion and preaching at 11 a. m. Subject: "Manhood, Its Measure and Meaning."

Evening service at 7:30 p. m. Subject: "The Remedy for a Lost World."

The Intermediate Endeavor will meet at 6 p. m. Mr. George Dougherty, superintendent.

The Senior Endeavor will meet at 6 p. m. Miss Edith Moore, president.

Tuesday evening the pastor will give his regular course of instruction in the Acts of the Apostles at the church building. Dr. Linscheid has kindly agreed to give all College students one college hour who will take the entire course. If you haven't enrolled, come Tuesday evening at 7:30 p. m. and join.—H. W. Wallace, minister.

Cissie Got in Bad With Hugo Booze Officers

HUGO.—The sad story of Cissie and how she "got in bad" is now being related by members of the sheriff's force here.

Cissie is a husky young lady but her portly form shows the effects of constant toll, the officers say. Cissie was all set to go to work when the officers arrived on the scene and freed her from bondage.

Cissie is a 130 gallon capacity copper still, with the name inscribed across the top. She was taken into custody by members of the sheriff's force Tuesday afternoon at 2:30 o'clock five miles east of Hugo. John Canada, alleged to have kept Cissie in a state of penance, was taken into custody. He had formerly been arrested on a similar charge. He made bond Wednesday morning pending a hearing in county court.

The still was set up, ready for operation, when found, officers said. They also found 3,500 gallons of sour mash.

Those composing the raiding party were Sheriff D. E. McClellan, Deputies Hatton Matthews and Maurice Cawthon and City Patrolman C. A. Pitts.

HOLLAND SEEKING TO REMOVE KINGDOM IDEA

(By the Associated Press)
AMSTERDAM.—Anti-quated ideas about Holland that prevail abroad, and often move the present generation of Dutch people to mild resentment, have at last been tracked to their origin.

A learned society which has made a thorough investigation into the current geographical text books and manuals used in elementary and secondary schools in all civilized countries of the world, has published a report which discloses that most of them are about 100 years behind the times.

Horse drawn canal barges, for instance, are still given as the popular mode of locomotion in Holland and while references to cows and windmills are plentiful, the books are silent on the development of modern Dutch dairy farming and other industries of the country. In one instance, a text book drew a picture of Dutch conditions as they existed 300 years ago.

The society in question has appointed a committee to remedy this state of things by vigorous efforts abroad to bring knowledge about present-day Holland somewhat more up to date.

Limited Production of Opium is Final Goal of Mrs. Wright

(By the Associated Press)

GENEVA.—Mrs. Hamilton Wright of Washington intends actively to continue her endeavors to secure a limitation of the production of opium in those countries which grow the poppy plant, despite the failure of the League of Nations Opium Commission to find any solution of this problem. At a recent meeting of the Opium Commission Mrs. Wright introduced a resolution asking the council of the League to approach the governments of Persia and Turkey to ascertain whether they are contemplating the substitution of other crops for such opium as is produced over and above the legitimate world requirements, but in view of the objections raised by various European delegates, she withdrew her resolution.

The Opium Commission seems to feel that there is no practical way of forcing any individual country to curb its poppy planting short of a decision to send an army of enforcement into the affected countries. As nobody thinks seriously of going to this extreme, the experts have framed a project to be submitted to the international Opium Conference in November which provides for the setting up of an international board of control to handle the who's question of narcotic drugs and which stipulates that every country shall make an annual estimate of its requirements in opium and narcotic drugs like morphine, heroin and cocaine. Extensive powers are given to the board of control to reject any national estimate which is deemed unreasonable. The experts believe that by this systematic national consumption will be checked, and that quite naturally the producing countries will find extensive opium growing an unpaying proposition.

But Mrs. Wright, like many other Americans, is firmly convinced that the opium evil cannot be met adequately unless direct steps are taken to limit production in countries like Persia and Turkey. Outlining her views to the correspondent of The Associated Press, Mrs. Wright declared that there was no use whatsoever in attempting to boycott the producing countries, as some people favored doing, because in her opinion the producing countries could easily revert by themselves going into the business of manufacturing narcotic drugs and by subsequently flooding the international markets, not only with raw opium, but with the habit-forming narcotic which are derived from opium. She said that she favored amicable direct negotiations with Persia and Turkey based on practical propositions to replace the opium crops with crops of silk, cotton, tobacco or wheat.

They had some knowledge of Elijah's departure but was little afraid to get close enough to see what Elijah saw and it must have been a glorious sight when he is trying to induce the National Silk Association of the United States to step in and get right off to start silk factories in Persia as a heaven and left his power behind first step towards substitution of another.

Poor men that had followed afar off met Elijah to get the latest report of the old prophet that had meant so much to Israel. They got frightened just like lots of folks do today and had a committee of 50 appointed to look for him and he had been in heaven three days when the search was over. But they noticed that Elijah's spirit rested on Elijah. Can the world tell today that the spirit of Jesus is resting on us.

A number came and several prayed through to victory and were gloriously blessed.

Americans Honored for Aid To Nippon After Earthquake

(By the Associated Press)
TONKIO, Sept. 18.—Special honorary membership in the Japan Red Cross and medals of merit have been conferred on Admiral Edwin A. Anderson, U. S. N., and Major-General George W. Read, U. S. in recognition of relief services at the time of Japan's great earthquake last September.

At that time Admiral Anderson commanded the United States Asiatic Fleet, which brought the first outside aid to the stricken areas, and General Read was in command of the Department of the Philippines, from which the first considerable shipments of relief supplies were sent.

Among other foreigners who received similar recognition is Giacomo de Martino, the Italian Ambassador.

SUDDET, Wyo., Sept. 19.—Subject today is burying its dead who perished in the explosion of one of its largest mines while county authorities are awaiting the recovery of 71 bodies in the shattered workings of the mine before launching an inquiry into the cause of the blast.

THE CHURCH

"For where two or three are gathered together in My name, then am I in the midst of them."

—Matt. 18-20.

THE history of the Church begins with the creation of man in the image, and for the glory of God, and comes down to the present as its relative goal, but will go on till the final settlement of all the affairs of men. It embraces within these limits all that belongs to the religious development of the race within the line of revelation—the origin, progress, and fortunes of the Kingdom of God and its relations to this world.

The history of the Church is the history of Christianity from the birth of Christ down to the present time. Church history verifies on every hand the promises of the Savior to be with His people against which the "gates of hell cannot prevail." It exhibits the life and power of Christ in all its forms and phases, and the triumph of His kingdom from land to land and generation to generation.

DAIRY SITUATION VIEWED IN STATE

Third of Cows Losing Money, Third Evens Up and Others Pay Money

One-third of all the dairy cows in the state of Oklahoma is losing money, a third is making up for what the first third is losing and the other third is reaping profits for their owners, according to a survey of the state dairy situation, just completed by the Blue Valley Creamery Institute.

Better feeding and better breeding is the solution of this problem, the Institute experts declare.

"The state of Oklahoma," continues the report of the institute, "has dairy cows in milk on 62 percent of her farms. In 1880 the state had practically no dairy cattle while in 1924 it averaged a bale 2,32 per cent. In 1910 the state had 114 heads of all kinds of cattle per one thousand acres of improved land. Now in 1924, it has only 111 head.

A few head more or less matters little. Have they improved in four years? What will they be fourteen years from now? These are the questions on which the Institute's experts will enlighten the farmers.

"Farmers want happiness and contentment. To get it they must make money. There are two ways of doing this—get more money for what they produce or lower cost of production. A quarter saved in the grain cost of producing a hundred pounds of milk by feeding better milk making grain rations, alone saved per one hundred pounds of pork, or dozen eggs, is money ahead for the farmer. We don't need more cows, hogs or hens. We need better ones. More efficient animals mean lower cost of manufacturing one hundred pounds of milk, pork, poultry, beef, mutton and eggs.

"The average cow in Oklahoma makes only 2012 pounds of milk, and only 1.2 per cent of all the dairy cattle in the state are purebred. Better feeding will raise production and lower costs per hundred pounds of milk. The daughters of good cows, sired by purebred bulls, will increase that production and further lower costs of production. The same is true with other animals. In 1910, the peak year, only 29 per cent of the entire state's income went to farmers. That is not enough," the Institute's experts point out.

There has been a rising tide of popularity in intensive farming. As agriculture is brought face to face with higher costs of production and farmers find that they cannot get by on highest priced land, it has been necessary to turn to diversification. Deflation has made every banker and farm leader see these things.

Canada has the lowest proportion of divorce cases in the English speaking world. Her figure last year was .3 percent, against England's 2.2 and America's 13.2 percent.

PARSONS MUST ACQUIRE BETTER PULPIT VOICES

LONDON, Sept. 19.—The comedy parson, one of the standing jokes on the English variety stage, is threatened with extinction. With the enthusiastic support of the Archbishops of Canterbury and York, a scheme is to be launched in October whereby all theological students preparing for Holy Orders in the Church of England will be trained in the right production and management of voice.

Already the sum of \$1,000 has

been secured to meet the expenses of instruction. Teachers will be assigned to train in voice production and elocution to the end that all clergymen be taught to read and preach with "clearness, sympathy and reverence."

GOT THE REAL THING

"For five long years I suffered with stomach trouble and what the doctors called gall stone colic, and all said nothing but an operation would do me any good. A friend who had taken your medicine advised me to try it, and I found it to be the real thing. I feel better than I have in eight years and I am praising God for May's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Gwin & Mays and leading druggists everywhere. Adv.

FORESTALL DREADED CHILLS AND FEVER

No one need suffer the annual recurrence of Chills and Fever, with its terribly weakening effect. Wintersmith's Chill Tonic will kill your chills, can take off the Malaria out of your system. If you can't submit to Malaria the best plan is to take Wintersmith's Chill Tonic before-hand. It will often prevent development of the disease. It puts back red blood into your veins, giving you the strength necessary to ward off Malaria.

Fifty-six years of continued success have made this the standard tonic in thousands of homes throughout the medical districts of the United States, Central and South America and elsewhere.

The system easily assimilates Wintersmith's Chill Tonic; there are no bad effects on the stomach or nerves. You should take a bottle in your home. Popular size, 60 cents; mammouth size, \$1.00. All drug stores. Wintersmith Chemical Company, Inc., Louisville, Ky.Adv.

KARNAK

Is Giving Hundreds
Here a New Grip
on Life by Restoring

Health, Strength and Energy of Younger Days

Never before has this city seen such a revival of the spirit of youthful vigor and energy as has been manifested since the introduction here of M. Pierre Andre's famous health building medicine Karnak!

People who have been dragging around half sick—waking up dull and tired, eyes heavy, head dizzy, tongue coated, bad taste and offensive breath are now bright and happy, full of pep and radiating health and energy as a result of taking Karnak.

Hundreds of men and women here who have been suffering from just such symptoms as indigestion, stomach, liver and kidney disorders—many of them of long standing, and some weak, thin and apparently on the verge of collapse—are now like people re-born again.

FRENCH SENATE FACES FREE SPEECH MENACE

(By the Associated Press)

PARIS—Whether the right of free speech ought to be interpreted liberally enough to permit extremists to preach civil war, is a question that will be debated in parliament when the Chamber of Deputies convenes after the summer vacation.

The opposition to M. Herriot's government will endeavor, in this discussion to rally to it a considerable number of deputies now supporting the cabinet, but who are the enemies of subversive agitation. The question will arise on the interpolation of Bonnefous of the Seine et Oise department, this deputy will demand of the government an explanation of the action of the Minister of Public Works in placing 15 special trains at the disposal of Communists who met recently in the suburb of Garches, where the doctrine of civil war was preached openly by several orators, including a Communist member of the German Reichstag.

The adversaries of the government will take the view that official tolerance of such manifestations is outright encouragement of Bolshevikism.

Farm Column

Poison Peach Borers

Throughout much of the peach-growing district east of the Rocky Mountains from Canada to Florida orchardists are troubled with the damaging work of the peach borer, the most important and serious pest of these trees and one that must be combated relentlessly if the peach is to be grown. Its injuries each year, to be grown. Its injuries each year, are estimated to be \$1,000,000.

This pest has been known for more than 150 years, is a native American insect, and has demanded the attention of horticultural men continuously. Many methods have been tried for its eradication and control, but not until 1915, when the bureau of entomology began experiments in the use of various toxic gases as a possible means of control, was any very practical method found.

In these experiments it was found that the chemical para-dichlorobenzene, for which the abbreviated name "paradichloro" is suggested when referred to as an insecticide, could be used successfully in control of the insect. This chemical is a white crystalline substance having an etherlike odor which, while harmless to persons and domestic animals under ordinary conditions, is poisonous to insects.

Application of this chemical to peach trees for the control of the peach borer should be made in the fall after most of the moths have finished their egg-laying activities, to avoid late infestation of the trees. The time suggested varies from September 1 as far north as Michigan, to October 10 in Georgia and Texas. The method consists simply of applying the chemical to the soil around the base of the tree trunk. As soon as the chemical has been applied, cover it carefully with several shovelfuls of dirt, making a cone-shaped mound around the tree trunk by packing the earth with the back of the shovel.

Under average fall weather conditions most of the chemical under the soil covering will have evaporated in four to six weeks, killing from 90 to 100 per cent of the borers. It is a good practice to remove the mounds of dirt some five or six weeks after application of the chemical.

The "paradichloro," in the experience of the bureau of entomology, can be used without danger of injury to trees four years of age and over—the dose on four and five-year trees being three-fourths of an ounce per tree, on trees six years or age and older one ounce per tree, or, if the trees are unusually large, 1½ ounces may be used.

Tuberculosis is being eliminated from the British Isles, medical experts say.

Karnak is sold in Ada exclusively at Chas. Burnett's.

TRADE RESTRAINT COUNSEL CHARGE

Claim Missouri Attorney General Unearthing Gasoline Combines

(By the Associated Press)

JEFFERSON CITY, Mo., Sept. 19.—The entire gasoline trade in America, and even in some foreign countries, is involved in evidence being produced in the gasoline price hearings conducted here by Attorney General Jesse W. Barrett of Missouri in the opinion of well informed authorities.

Contracts brought forward at the hearing between the Standard Oil Company of Indiana and, nearly all the other important companies of the United States, and applying to their foreign trade, are pronounced a violation of the anti-trust laws both by United States Attorney General Stone and Attorney General Barrett.

Some weeks ago the United States Department of Justice filed a suit against 48 oil companies doing interstate business, charging that by a system of licenses on "cracking process" patents, the gasoline trade of the United States was being restricted and monopolized, and asking that the defendants be enjoined from a continuance of the contracts and their effects. The contracts, the existence of which was alleged by the government, were produced at the Missouri hearing by the Standard Oil Company and admitted to be in effect at the present time.

A form of engagement which was particularly denounced by Attorney General Barrett is illustrated by the contract between the Standard Oil Company of Indiana and the Standard Oil Company of California. This recites that the Texas Company is owner of certain cracking patents; that the Texas Company authorizes the Standard Oil Company of Indiana to grant licenses under the Texas patents; that the Standard of Indiana thereby licenses the Standard of California under the Texas Company's patents on the condition that the Standard of California sells none of the gasoline so produced in Indiana, Illinois, Iowa, Kansas, Minnesota, Michigan, Wisconsin, Missouri, North Dakota, South Dakota, Nebraska, Montana, Wyoming, Colorado or Oklahoma or in the Dominion of Canada or the Colony of Newfoundland.

This, Attorney General Barrett asserts, is a plain restraint of trade and not justified by any rights granted under letters patent.

SOONER GRID SQUAD IN STIFF PRACTISE NOW

NORMAN, Sept. 19.—Sooner football changed first week from individual practice to organized workouts when Bennie Owen, head coach, divided most of his gridmen into four squads and started them on formation plays.

With rising home, observers watched the squad return to aerial practice, the style of football that has distinguished Oklahoma in football circles heretofore. Many wondered with what intentions Coaches Owen put his men through a "headline" formation, a play that was used to a degree of success last year by the Oklahoma Aggies. Owen had his linemen face the quarterback while the pilot told them the play. Then the line shifted back into its regular position.

In his selection for the first team, Owen picked Price and Ringo at ends, Wallace and Meyberry, guards, Smoot and Brockman, Tackle, Schuster, center, Ledford and Lab, halves. Hendrix, quarter and Bristol at his old post at fullback.

For the second string, Woodall and Skillern drew ends, Peinick and Campbell, guards, Guffy and White, tackles, Wolfe, center, Slough, quarterback, Arbuckle and Steinberger, halves, and Willoughby fullback.

Regular scrimmaging will be delayed several days, Owen believes his men should be conditioned evenly. The Broner squad that took the field showed up well and are expected to give the regulars a stiff fight when they line up against each other.

The first game of the season will be with the Central State Teachers college here.

SCOTCH TAX COLLECTORS OUT AFTER DELINQUENTS

ABERDEEN.—The burden of taxation which has depopulated England and the country squire and the lord who owned large sections of counties is beginning to be felt in the Highlands.

Because their Highland estates are largely unproductive and their extent somewhat doubtful, the owners have heretofore not been held strictly to account by the tax-collector. Recently, however, the tax surveyors have been busy in the northern Scottish counties and large tax bills have been sent to lords representing to them a dead loss. Now scores of castles and manors with centuries of historic connections and thousands of acres of land are offered for sale.

One of the most famous is the Fingask Castle with 13,527 acres of land, which was built in 1594 and has been connected with all the important events of Highland history, particularly the escapades of Bonnie Prince Charlie.

Despite many inducements the owners cannot find a market for their estates.

Sweaters

for the
cool days

We are showing a wide range of models and colors for men, women, boys and girls.

Prices \$1 to \$10

TWO SPECIALS

No. 547—Slip-over, in a medium weight silk and wool, V neck; specially suited for school wear.

\$5.00

No. 3396—Heavy, all-wool, rope stitch, coat styles; colors cardinal and white.

\$10

BETTY COMPSON IS STAR OF "MIAMI"

Betty Compson who has the leading role in "Miami," the new Alan Crosland society picture which comes to the American theatre for a two days run next Monday is admitted to be one of the most talented as well as the most appealing of feminine stars.

She was born in Salt Lake City and appeared in vaudeville before entering moving pictures. She began her screen career in Christie comedies and played in seventy-eight of them before getting a part in a feature. Her performance in "The Miracle Man," her first long picture under the Paramount banner, stamped her as one of the foremost actresses on the screen. Since then, her popularity has been constantly growing. All of her pictures have been acknowledged successes.

Her latest productions include "The Little Minister," "The Green Temptation," "The Bonded Woman," "To Have and to Hold," "The White Flower," "The Rustic of Silk," "The Woman With Four Faces" and "The Stranger."

In "Miami," Miss Compson has a role different from any of her recent characterizations. She is seen as a wealthy ultra-modern society girl who is the "life of the party" at the famous winter resort and who almost loses the man she loves through her daring escapades. Her characterization is thoroughly realistic and is said to be one of the best things she has ever done.

Miss Compson's supporting cast includes Benjamin F. Finney, Jr., Hilda Hoppe, Lucy Fox, J. Barney Sherry and Lawford Davidson. The story of "Miami" was written by John Lynch, well-known screen writer.

TULSA DISTRICT HOLDS MELON WEIGHT RECORD

OKLAHOMA CITY.—The largest average weight carload of melons for the season was loaded at Tulsa last week. The melons averaged 45 pounds for the carload, according to Ed Dustin, state market commissioner.

Oklahoma's Keifer pear crop is ripe but the market is slow and pears grown at Wynnewood, Okla., are selling at \$1 to \$1.50 a bushel for local preserving. The New York and Chicago markets are not calling for Oklahoma pears, as southern Illinois supplies them often, so the only market left to Oklahoma growers is Kansas, Nebraska and a part of Iowa and Missouri.

Most of the sweet potato crop will be stored, as weather conditions in the state at present are ideal for that purpose, and Colorado will supply a limited market until next spring. The melon market at Kansas City has been ruined by the cool weather, but virtually all of the melons have been harvested, Dustin says.

Strips of New South Wales stamps of different values and dating back to 1856 were discovered recently in the record office, London.

A Card Party will be given at Glenwood school this evening at 7:30 for the benefit of athletics. No admission charges.
